Escape Protocol — Game Questionnaires & Clue Locations

Master operational log detailing puzzles, clue placements, and progressive hint structures across all active game missions.

Mission A: The Forgotten Wing (Language & Visual Deduction)

Level & Room	Puzzle Concept	Hidden Clue Location	Hint for Difficult Questions
Level 1 Room 01: Reception	**Simple Clue Matching**A dusty visitor register has several names crossed out. Use the date and initials on a notice to identify the correct uncrossed entry.	Inside the hollow base of the reception desk drawer.	—
Level 2 Room 02: Locker Row	**Number / Order Puzzle**A locker has a three-digit combination. Nearby locker stickers and a torn timetable provide the correct sequence.	Scratched onto the underside of the middle bench near the lockers.	—
Level 3 Room 03: Lecture Hall	**Language Deduction**A blackboard contains a sentence with missing words. The correct words are written in the margins of old professor notes.	Tucked behind the swinging hinge of the chalkboard frame.	Look closely at the handwri...
Level 4 Room 04: Library	**Ordering / Hidden Word**Arrange books by clues in a librarian's note; selected spine letters form a secret word.	Carved into the wooden leg of the librarian's main reading desk.	Pay attention to the roman ...
Level 5 Room 05: Art Room	**Visual Recognition**Match shadow outlines or simple shapes to sketches on the wall to reveal a symbol sequence.	Hidden inside an old hollowed-out plaster sculpture bust.	—

Level & Room	Puzzle Concept	Hidden Clue Location	Hint for Difficult Questions
Level 6 Room 06: Staff Office	**Fragment Assembly**Rearrange a set of scattered paper fragments to reconstruct a warning note that identifies a target photograph.	Stuck to the back panel of the vertical filing cabinet.	Group the fragments with c...
Level 7 Room 07: Examination Room	**Simple Cipher**Decode a short letter-shift cipher using the shift hinted at on the exam sheet.	Flipped over and taped to the underside of the examination podium.	Shift each letter backward ...
Level 8 Room 08: Sealed Corridor	**Multi-Clue Deduction**Combine the locker number, symbol sequence, and decoded cipher using notebook clues to open the sealed wing.	Scrawled in invisible UV ink inside the emergency electrical box panel.	Combine the sequence fro...

Mission B: Project Zero (Science & Intelligence)

Level & Room	Puzzle Concept	Hidden Clue Location	Hint for Difficult Questions
Level 1 Room 01: Science Block	**Object Matching**Match labelled equipment to its silhouette using a lab safety poster.	Inside a sealed glass beaker on the back preparation shelf.	—
Level 2 Room 02: Mathematics Room	**Number Sequence**Complete a number sequence using a pattern shown in the teacher's handwritten notes.	Taped behind the sliding wall-mounted whiteboard.	—
Level 3 Room 03: Chemistry Lab	**Reference-Based Science**Use an in-game periodic-table reference to match element symbols to labels and unlock a specimen cabinet.	Engraved on the metal underside of the fume hood sink drain.	Cross-reference the atomic...
Level 4 Room 04: Computer Lab	**Binary Decoding**Convert a short binary message using a simple reference card to get a terminal password.	Written on a sticky note stuck inside the computer tower casing.	Group the binary digits into ...

Level & Room	Puzzle Concept	Hidden Clue Location	Hint for Difficult Questions
Level 5 Room 05: Optics Room	**Spatial / Light Puzzle**Rotate mirrors or select a light path to direct a beam toward a sensor to power a door panel.	Concealed behind the sliding lens cover of the optical bench.	Trace the beam backwards ...
Level 6 Room 06: Electrical Lab	**Circuit Logic**Complete a simple circuit by selecting the correct connection path to restore partial power.	Sealed behind the warning hatch of the breaker panel box.	Ensure the ground wire byp...
Level 7 Room 07: Storage Room	**Measurement / Logic**Use a balance scale or labelled measurements to identify the correct container and find a fuse.	Hidden inside a hollowed-out textbook dummy on the bottom shelf.	Balance the known weights...
Level 8 Room 08: Research Office	**Multi-Step Deduction / Control Room**Match formulas, symbols, and notes to restart the system safely and open the project vault.	Locked inside the double-bottom drawer of the lead researcher's desk.	Align the variables from the...
